Special Dietary & Medical Needs Roster
Hale Scout Reservation

We want to make your Scouts experience at HSR is memorable, without the worries of food allergies. Our dining hall will make modifications to fit special dietary needs. You may also bring an ice chest with your Scout's name and troop number on it that contains food they will be able to eat in case there isn't a substitute. We will have ice at camp to keep this cold. This Special Dietary & Medical Needs Roster will inform the staff of the products that the Scout is allergic to. We will have a book with the ingredients of most of the items that we serve in the Dining Hall. If an Epi–Pen is required, that needs to be listed on the Special Needs Request as well. Please be aware that there is a possibility of menu changes during the week.

If you have any questions concerning this you can contact us at 918-392-1231, 1-800-367-1272

or email camphale@okscouts.org.

Please list all Scouts & leaders requiring special dietary and medical needs including:

- **Specific medical treatments while in camp**
- **Special medical equipment (including adults that require transportation-must have a physicians note)**
- **Injections while in camp with extreme reactions to specific allergies**
